Galvanic Works: Company Timeline

Key Milestones

2021

November: ARC 2021 departure from Las Palmas, Gran Canaria - Piero crosses the Atlantic aboard "Andrew" - Night watch frustrations with indistinguishable alarms begin - Concept for voice-based alert system first discussed mid-ocean

December: Arrival in St. Lucia after 18 days at sea

2022

May–June: ARC Europe: St Maarten to Lagos, Portugal - Natalie and Piero cross the Atlantic aboard "Andrew" - Continued frustration with indistinguishable alarms; deeper understanding of what sailors actually need - Decision to build a solution

Late 2022: Concept development begins

2023-2024

Development Phase - Technical feasibility research - NMEA 2000 protocol deep-dive - Voice synthesis evaluation - Initial prototype work

---

2025

Q1: Galvanic Works formally established - Company registered in Spain - Development accelerates

Q2-Q4: Product development - Galvanic Voice hardware design - Software development - Galvanic Pulse wearable development - Testing on "Andrew"

2026

January: Marketing campaign launch - "Silent Until It Matters" brand campaign - Social media presence established (Instagram, Facebook, LinkedIn) - Website live at galvanicworks.com - Media outreach begins

Q1: Pre-launch activities - VIP reservation program opens - B2B outreach to charter companies and dealers - Press briefings under embargo

Q2: Pre-order program - Public pre-orders begin - Pricing confirmed at €950 ex-VAT - Production preparation

2 October: British Yachting Awards 2026 - Galvanic Voice is nominated for Equipment Innovation of the Year at the British Yachting Awards 2026.

31 October: Pre-orders close

Q4: First shipments (planned) - VIP pre-orders ship first - Charter company pilot programs

---

2027 (Planned)

- International expansion
- Charter fleet rollouts
- Dealer network growth

The Journey in Numbers

Metric	Value
Nautical miles sailed	30,000+
Atlantic crossings	3
Years from concept to launch	4
Voice alert categories	7+
Subscription fees	€0

Company Philosophy

"We're sailors who build products, not product people who learned to sail. Every feature in Galvanic Voice exists because we needed it ourselves."
